

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: James Palka
DOCKET NO.: 04-20936.001-R-1
PARCEL NO.: 01-03-200-033-0000

The parties of record before the Property Tax Appeal Board are James Palka, the appellant, by attorney Joanne P. Elliott of Elliott & Associates in Des Plaines, and the Cook County Board of Review.

The subject property consists of a six-year-old, two-story, single-family dwelling of masonry construction containing 9,668 square feet of living area and located in Barrington Township, Cook County. Features of the home include six and one-half bathrooms, a partial-finished basement, air-conditioning, six fireplaces and a four-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on five properties suggested as comparable to the subject. The appellant also submitted a two-page brief, photographs of the subject and two of the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the five suggested comparables consist of two-story, single-family dwellings of frame, masonry or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 5,394 to 8,153 square feet of living area and range in age from four to 36 years. The comparables contain from three and one-half to seven and one-half bathrooms, a finished or unfinished basement, air-conditioning and a one-car, three-car or four-car garage. Four comparables contain one or two fireplaces. The improvement assessments range from \$10.91 to \$13.60 per square foot of living area. Based on the evidence submitted, the

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 17,598
IMPR.: \$ 154,977
TOTAL: \$ 172,575

Subject only to the State multiplier as applicable.

appellant requested a total assessment of \$135,934, with an improvement assessment of \$118,336 or \$12.24 per square foot of living area and a land assessment to remain unchanged at \$17,598.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$172,575. The subject's improvement assessment is \$154,977 or \$16.03 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of frame, masonry or frame and masonry construction located within the same survey block as the subject. The improvements range in size from 5,241 to 6,659 square feet of living area and range in age from four to 35 years. The comparables contain from three to six full bathrooms, a finished or unfinished basement, air-conditioning, two or three fireplaces and a three-car or four-car attached garage. The improvement assessments range from \$17.27 to \$22.67 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties submitted a total of nine properties somewhat similar to the subject but with many variations in living area, age and/or type of construction. These nine properties have improvement assessments ranging from \$10.91 to \$22.67 per square foot of living area. The subject's per square foot improvement assessment of \$16.03 falls within the range established by these properties. The Board finds of the nine comparables offered by the parties, eight vary substantially from the subject in living area, five vary in construction and four vary in age. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the evidence submitted by both parties does not support a change in the subject's current assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the

subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
